

Evidence-guide design record

Four blank fields for choices, physical action and actual reader.

Do not turn a predicted response into a real result.

USER / QUESTION / SOURCE

Who asks what, about which labelled source?

TWO SERVICES / CHOICE

What differs? Why choose one for this user?

CUE MAKER / ACTUAL USER

Who marked/held? What did the reader really do?

CHANGE / UNKNOWN / NEXT

What changed, or what still needs a reader?
