

Care message · plan and check

Make a useful paper cue; check words against the source before permitted use.

SOURCE E · HELPER'S PLAN

"I plan a picture message showing the square shelf and round return tray, using Sol's words. I will ask Sol to check it."

SOURCE F · SOL'S MESSAGE CHECK

"I checked the helper's paper message. It matches my request. I have not reported how a visitor used it."

MY PLANNED CUE

Feature, step, source and ask-first question.

SOURCE CHECK / MY REVISION

Keep first version; record check scope or gap.

USE OR ACTION

What actually happened? Do not infer use from a wording check.
