TRAY PAGE

FRAME PAGE

B1 · DRAWING

“Paper Sail: a triangle picture frame is on the left and a square page tray is on the right. This is an invented place drawing.”

B2 · PLAN

“I plan the same frame-page and tray-page beside each other, or tray-page above frame-page. This is a plan, not a use report.”

B3 · WYNN SAYS

“The tray matters to me because I keep my paper story pages there. This is my own reason.”

B4 · TALI ASKS

“Return picture pages to the broad sleeve after use. Ask me before putting a page in the frame. This is a care request.”

B5 · NELA REPORTS

“I looked at the beside plan and chose pass before the paper try. I did not use the display. I have not reported other people’s views.”
