

Zero to twenty: reference and build

Numeral order is position, not the length of a card.

Reference: count each step from zero to twenty

Continue to the next strip below.

Build: place loose numeral cards on the blank track

0 to 10

11 to 20; count on from the strip above

Say how you know

Which number comes just before? Just after? Between?

Point, speak, sign, use AAC, or direct a helper.
