Complete alternatives for five original visual aids

Read aloud, enlarge, use usual speech/sign/gesture/AAC, broad tactile/paper shapes, exact description or a wanted neutral scribe. No visual layout, handwriting or device is mandatory. Filled source and genuinely blank response spaces are different; the three pictured source features are not empty learner fields. No actual learner or local-place evidence is prefilled.

sprout-yard-source.svg — whole O1 stimulus

Canvas is 1000 by 720, white background, dark readable words and strokes. Title is Sprout Yard source. The source is explicitly invented and unscaled, not a real place. From a lower-left marked front corner, a grey triangular hill at the upper left is labelled Naturally formed hill; a pale green rectangular patch with five dark vertical row marks in the centre is labelled Planted/tended bean patch; a pale rectangular sign with two supporting posts at the lower right is labelled Built sign. A dark L-shaped lower-left cue marks Front corner. These three features are already drawn and filled; zero response blanks. The stated origins come from original O1 fiction, not from colour, real field observation, compass orientation, scale or cultural account.

Complete nonvisual/tactile route: name the lower-left front cue, then place a large triangle/hill slip upper left, a broad rectangle/bean-patch slip centre and a two-post/sign slip lower right. Read the exact source origins: hill naturally formed; patch deliberately planted and tended; sign built. No real distances, people, care provider, compass bearing or culture are supplied. A child can make their own representation only after choosing what matters to their guide; supplied shapes are a model source, not the child's finished work.

my-place-guide.svg — one genuine response space

One empty white rectangle with dark border begins at x50/y180, width900/height405. Its outside label is My actual marks or exact described arrangement. There is no drawing, line, teacher example or symbol inside. On blank paper use the same open workspace, or use a reachable mat/exact dictated description. Choose source, actual feature meanings, viewpoint and key; make an actual arrangement or keep a plan honestly as a plan. No pupil identifying information is required.

Keep the complete notice packet. Original expression CC BY 4.0; code/font/renderer terms separate.

try-a-clue.svg — two genuine response spaces

Two empty white bordered fields: x50/y190 and x530/y190, each width420/height340. Labels are Chosen actual task and Result / unknown / not tried, outside their fields. No result is supplied. Complete paper/text route: task ____; actual operator/helper/conditions ____; actual result ____ / unknown / not tried; real reply NONE / ____; child's keep/change/stop ____. Predicted success, fictional feedback or a copied board is not an observed result. A self-trial remains a self-trial.

two-source-dates.svg — two genuine response spaces

Two empty white bordered fields at x50/y190 and x530/y190, width420/height340. Outside labels are Earlier source / date / detail and Later source / date / detail. No dates or sample histories are filled. Complete paper/text route: earlier source/provider/date/represented period/detail ____; later source/provider/date/period/detail ____; supported same/change ____; unknown ____. Positions make an unscaled record strip; they do not measure elapsed time or prove an expected event happened. Keep event/publication/update/check dates separate.

source-and-proposal.svg — two genuine response spaces

Two empty white bordered fields at x50/y190 and x530/y190, width420/height340. Labels Source actually shows and My proposal / who checks sit outside. Complete paper/text route: source/type/context/detail ____; my provisional conclusion/proposal ____; supporting clue ____; actual permitted model action/trial or not done ____; responsible adult/authority still needed ____. It is not a filled model, adopted care action or real permission.

Shared visible words and rights

Every canvas says Use the source. Keep your own choices and marks. The O1 source canvas additionally says O1 · Invented Sprout Yard · unscaled source, not a real place. Every canvas has this footer: Original SubjectNest by NeuroForgeIO Pty Ltd 2026 · CC BY 4.0; credit, licence and changes; full SOURCE-AND-RIGHTS.md; no learner data. Original artwork/education/these alternatives CC BY 4.0; source generator Apache 2.0; no font binary or PDF/native rights approval is supplied. Outside sources and actual learner work remain separate. Whole notice (source-and-rights.html).
