

Evidence ladder

Read the case, then climb only as far as evidence permits.

1 STATED CASE FACT

Card C: one commuter reported hard-to-read text.

Keep the source and quantity attached.

2 POSSIBLE INTERPRETATION

Some users may have trouble reading notices.

This is a cautious implication, not a population result.

3 NOT ESTABLISHED

Most commuters dislike the service.

One fictional comment cannot prove this.

4 NEXT EVIDENCE

Ask for consented, relevant user feedback.

A proposed collection is not yet an outcome.
