

Efficiency and equity lens

A frontier shows maximum output mixes, not who should get them.

1 TECHNICAL EFFICIENCY

F1 (2 workshops, 9 circles) is on Card A frontier.

2 ANOTHER EFFICIENT MIX

F2 (3 workshops, 6 circles) is also on it.

3 TRADE-OFF

F1 to F2: +1 workshop, -3 circles.

4 DECLARE CRITERION

More workshops? More circles? State the aim.

5 EQUITY QUESTION

Who owns inputs / can use outputs? Unknown.

No mix is automatically fairer or preferred.
