

Risk evidence board

Compare systems, not stereotypes about residents.

1 SAME HAZARD + EXPOSURE

Eastbank and Westbank: 20 dwellings each in M.

2 DIFFERENT CAPACITY EVIDENCE

East: rehearsed warning; two checked possible routes.

3 SYSTEM GAP TO INVESTIGATE

West: warning reach untested; crossing unverified.

4 CAUTIOUS INFERENCE

Consequences may differ; no losses are reported.

5 ACTION + EVIDENCE

Test warning reach and ask authority to verify routes.

Invented profiles ≠ required real two-place case study.
