

PERIOD CONVERTER

Card A · use a divisor that matches the period named in your answer.

GROSS ANNUAL MODEL AMOUNT

\$65,520 per year

Assume equal model periods: 52 weeks · 26 fortnights · 12 months

WEEK

\$65,520 ÷ 52 = _____

Reverse check: amount × periods = _____

FORTNIGHT

\$65,520 ÷ 26 = _____

Reverse check: amount × periods = _____

AVERAGE MONTH

\$65,520 ÷ 12 = _____

Reverse check: amount × periods = _____

Gross-period model ≠ net payslip or a guaranteed calendar amount.
