# Your useful fraction guide

**YOUR RESPONSE · words, drawing, signing or wanted help**

Choose one safe paper or described job. Name its whole and equal-size parts; your own mathematical choices have not been filled in.

1. What is the useful job and its whole?

2. How are its parts equal, and what unit fraction is one part?

3. What multiple do you choose, and what same-denominator part completes it?

4. How will you check or revise it? Record actual help/action/reader use separately.
