

Year 4 maths · three decimal number lines

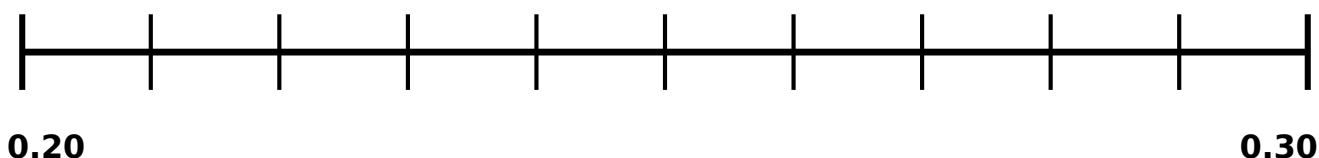

Count equal SPACES after the left endpoint. Mark a point and say why.

A · one whole split into ten tenths

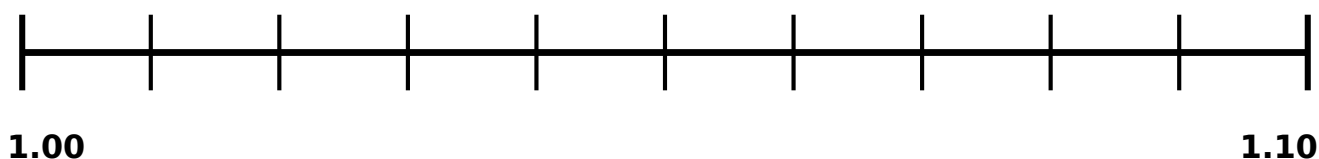

My mark is _____ ; it is _____ spaces after _____.

B · zoom one tenth into ten hundredths

Each gap = 0.01. My mark is _____ ; I counted _____ gaps.

C · zoom beyond one whole

My mark is _____ ; its whole/tenth/hundredth places are _____.

Scale check: are all the spaces on this line equal? [] yes [] redo

If your lesson uses different endpoints, relabel a blank line first.

A point on one zoom is not automatically at the same place on another.
