

Year 6 maths · same-whole fraction number lines

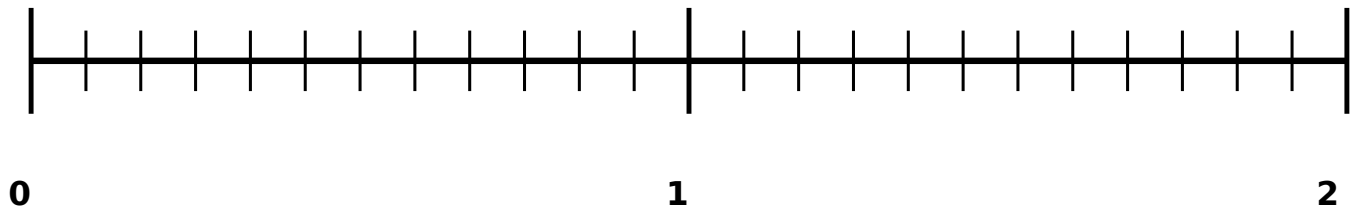

Count equal **GAPS**, not tick marks. Label equivalent names at one point.

A · zero to one: 12 equal gaps

My mark(s) and reason:

B · zero to two: 12 equal gaps in EACH unit, 24 in all

My equivalent twelfth names:

These two printed lines have DIFFERENT physical scales.

Compare values within a line; do not transfer centimetres between lines.

The unit from 0 to 1 in line B equals the unit from 1 to 2 in B.
