Make the strip as the work

Four optional blank spaces; one meaningful part first.

ONE USEFUL COMPONENT CAN START REAL WORK

Optional space 1

Optional space 2

Optional space 3

Optional space 4

These are spare spaces, not a four-panel completion gate.

A made still strip can be the final media artwork itself.

Or name it a storyboard for a possible unmade film.

Who made marks? What did I choose? What help/tool?
